#### 1.1 ASIC BENCHMARKS

Table 1 - ASIC Regulatory Guide 69 Benchmarks

Benchmark	Issuer meets benchmark?	Refer to item:
Benchmark 1 - Equity Ratio	Yes	1.3
Benchmark 2 - Liquidity	Yes	1.4
Benchmark 3 - Rollovers	Yes	1.2
Benchmark 4 - Debt Maturity	Yes	1.5
Benchmark 5 - Loan Portfolio	Yes	1.6
Benchmark 6 - Related Party Transactions	Yes	1.7
Benchmark 7 – Valuations	Yes	1.8
Benchmark 8 - Lending Principles	Yes	1.9

Table 1 lists the ASIC Regulatory Guide 69 benchmarks applicable to unlisted note issues and whether they are met for this reporting period and where they are referred to in this report.

#### 1.2 ASIC BENCHMARK 3 - ROLLOVERS: RENEWAL ON MATURITY

Progressive meets the ASIC Rollovers benchmark by making the following disclosures. On or about the maturity of a fixed term investment, a written notice is sent to the Investor:

- Inviting the investor's instructions for reinvestment;
- Advising the current interest rates applying to our investment options; and
- Informing availability of the current Prospectus and any other relevant disclosure including continuous disclosure information.

If no instructions are received we assume the investor wishes to reinvest under the same terms at the then current rate.

If an investment is not renewed, interest will cease at the expiration of the term and the money will be repaid to the investor in the prescribed manner within one working day of such advice.

# 1.3 ASIC BENCHMARK 1 - EQUITY RATIO

Progressive meets the ASIC Equity Ratio benchmark whereby a minimum 8% *equity ratio* (total equity/(total equity + total liabilities)) is maintained to ensure prudent capitalisation of its mortgage financing business.

At September 30, 2013 Progressive's *equity ratio* was 13.87% and 3.99% of its lending was related to property development.

## 1.4 ASIC BENCHMARK 2 - LIQUIDITY

Progressive meets the ASIC Liquidity benchmark which requires that it has 3-month forward cash flow estimates and that it maintain at all times a cash balance at least equal to its estimated cash requirement for the next 3 months.

At September 30, 2013 Progressive's:

- Cash balance requirement assuming a rollover rate of 90% of fixed term investments and retention of 91% of no fixed term investments, and no new investments, was \$298,139.
- Estimated cash requirement for the previous quarter using the same assumptions was \$316,543 and actual cash outflow for the previous quarter was \$713,139.
- Actual average quarterly rollover and retention rates for the preceding 12 months were 95.97% and 92.47%, and for the preceding quarter were 97.98% and 92.36%.
- Cash balance requirement would have been \$5,008,901 if the rollover and retention rates were 20% less than the actual rates experienced for the prior 3 months.
- Actual available cash balance was \$53,691,820 including \$44,940,976 cash and term
  deposits held directly, the balance available from the parent company, and representing
  114% of total investor liabilities.

Progressive ensures that assets maturing within 1 year are always at least equal to liabilities maturing within 1 year (see Table 2). This balancing of maturities is aided by a policy that all mortgage loans other than loans regulated under the *National Consumer Credit Protection Act* 2009 ('Credit Code' loans) are subject to recall after 3 years.

#### 1.5 ASIC BENCHMARK 4 - DEBT MATURITY

To meet the ASIC Debt Maturity disclosure benchmark, a maturity profile of amounts owing to Investors and other interest-bearing liabilities, and applicable average interest rates, appears below in Table 2. Included in liabilities payable within 3 months are variable rate no-fixed-term investments for which the investment terms and conditions provide for an orderly repayment in sequence out of funds available, and amounts owing to related parties.

Table 2 - Maturities at September 30, 2013

Matures:	Cash and Term Deposits \$	Loans Subject to Recall and/or Expiring \$	Interest-Bearing Liabilities \$
Within 3 Months	32,713,629	15,668,406	35,659,116
3 – 12 Months	12,227,347	3,623,568	14,664,011
1 – 3 Years	-	1,009,048	8,306,188
Totals	44,940,976	20,301,022	58,629,315
Av Interest Rate	4.10%	7.16%	4.28%

#### 1.6 ASIC BENCHMARK 5 - LOAN PORTFOLIO

To meet the ASIC Loan Portfolio disclosure benchmark, details of Progressive's current loan portfolio and related policies are set out in Tables 2, 3.1, 3.2, 3.3 and 3.4, and the policies applied by Progressive in the origination and management of mortgage assets are as follows:

- All loans are secured by registered mortgage over real estate which is assessed to be readily saleable or income earning.
- Loans are made within New South Wales and the Australian Capital Territory and predominantly within the greater Sydney Metropolitan area.
- Securities are valued by independent experienced valuers.
- Loans can be made to natural persons, companies or a trust provided they are not associates of Progressive.
- All mortgage loans other than Credit Code loans are subject to full repayment on written notice no later than three years from execution.
- Not more than 10% of total loan funds can be advanced to any one borrower.
- Experienced officers of Progressive appraise all loan proposals. No loan is made without:
  - the written consent of the loans manager and a director of the Company;
  - satisfactory evidence of value;
  - a solicitor's certificate that the title is in order;
  - a registrable mortgage; and
  - with the exception of unimproved land, satisfactory proof that the property to be mortgaged has been insured.
- Loans that require loan insurance are not made.
- Loans are closely monitored for performance. Daily exceptions reports are generated to identify any accounts requiring maintenance such as insurance renewal, a review of interest rates or follow up on late payment.
- Loans in default or arrears are considered on an individual basis. Reasonable proposals
  for the borrower to normalise the account are allowed and scope for restructuring the
  loan is investigated. When the loan is clearly no longer viable it will be called in and any
  actions thereafter necessary for recovery taken.

#### 1.8 ASIC BENCHMARK 7 - VALUATIONS

Progressive meets this benchmark by adhering to the following policies:

- Real estate is valued on an "as is" and (for development property) an "as if complete" basis.
- Progressive uses independent licensed valuers, appointed with the consent of the Trustee, and ensures that no single valuer conducts more than 1/3 of its valuations.
- Before any property is mortgaged a current independent valuation is required.
- Development loans are advanced in stages to cover completion costs based on external evidence of the progress of the development.
- New valuation of a mortgaged property is required whenever it is considered that the
  most recent valuation is insufficient for a new loan or further advance sought; or
  inadequate because of changed circumstances, for example when there is a change in
  interest rate or the term of the loan, or when changes to zoning or local environment or
  major economic events occur that potentially adversely impact property values.

#### 1.9 ASIC BENCHMARK 8 - LENDING PRINCIPLES

Progressive meets the ASIC Lending Principles benchmark by:

- Maintaining the following loan-to-valuation ratios:
  - where the loan relates to property development a maximum of 70% on the basis of the latest 'as if complete' valuation; and
  - In all other cases 80% on the basis of the latest market valuation.
- Requiring for any property development loan that funds may only be advanced in stages based on external evidence of the progress of the development.
