DEBENTURE STOCK - Benchmark Report at September 30, 2010

1.1 ASIC BENCHMARKS FOR UNLISTED DEBENTURES

Table 1 lists the ASIC benchmarks applicable to unlisted debenture issues and whether they are met for this reporting period and where they are referred to in this report.

Benchmark	Issue meets benchmark?	Refer to item:
Equity capital	Yes	1.3
Liquidity	Yes	1.4
Rollovers	Yes	1.2
Credit ratings	No	1.5
Loan portfolio	Yes	1.6
Related party transactions	Yes	1.7
Valuations	Yes	1.8
Lending principles	Yes	1.9

1.2 ROLLOVERS BENCHMARK – RENEWAL ON MATURITY

On or about the maturity of a Fixed Term deposit, a written notice is sent to the Investor:

- Inviting the investor's instructions for reinvestment;
- Advising the current interest rates applying to our investment options; and
- Informing availability of current Prospectus and any other relevant disclosure.

If no instructions are received we assume the investor wishes to reinvest under the same terms at the then current rate.

If an investment is not renewed, interest will cease at the expiration of the term and the money will be repaid to the investor in the prescribed manner within one working day of such advice.

Repayment of a mature investment is subject to the surrender of the relevant Record of Investment.

1.3 EQUITY CAPITAL BENCHMARK

Progressive follows the ASIC Equity Capital benchmark whereby a minimum 8% equity ratio is maintained to ensure prudent capitalisation of its mortgage financing business; and if and when more than a minor part of lending were to be directly or indirectly for property development this minimum ratio would increase to 20%.

At **September 30, 2010** Progressive's equity ratio was **12.63%** and **0.0%** of its lending was related to property development.

1.4 LIQUIDITY BENCHMARK

Progressive follows the ASIC Liquidity benchmark whereby a cash balance is maintained on a rolling basis at least equal to its estimated cash requirement for the next 3 months. In calculating this requirement a rollover of **90%** of Fixed Term investments is assumed. Progressive's cash balance requirement at **September 30, 2010** was **\$369,431** as against a 'stress tested' requirement of **\$4,762,304** if the rollover percentage was to fall to 0%; and the actual available cash of **\$38,250,654**.

Progressive also ensures that assets maturing within 1 year are always at least equal to liabilities maturing within 1 year (included in liabilities payable within 1 year are No Fixed Term deposits for which the investment terms and conditions provide for an orderly repayment in sequence out of funds available) - see Table 2 overleaf.

This balancing of maturities is aided by a policy that all mortgage loans other than loans under the Credit Code are subject to recall after 3 years

1.4 LIQUIDITY BENCHMARK CONTINUED

Table 2 - Maturities at September 30, 2010

Matures:	Cash & Mortgages due &/or Subject to Recall	Liabilities Payable
Within 1 Year	\$61,371,671	\$45,399,070
After 1 Year	\$421,259	\$8,603,925

1.5 CREDIT RATINGS BENCHMARK

The Credit Ratings benchmark is not followed, and Progressive has not sought a credit rating of this debenture issue, which would provide an independent assessment about the risk of Investors losing all or part of their principal investment in the issue.

Progressive does not follow this benchmark because the Company has issued debentures and conducted its mortgage finance business since 1953 without seeking a credit rating, and considers that, whilst the nature of its issue and its business model (including following the other 7 ASIC benchmarks) are maintained, credit risk for Investors is effectively managed.

Investors or their representative by appointment can inspect Progressive's records and securities.

1.6 LOAN PORTFOLIO BENCHMARK

To meet the ASIC Loan Portfolio disclosure benchmark, details of Progressive's current loan portfolio and related policies are set out below and in Tables 3.1, 3.2, 3.3 and 3.4.

Progressive's policies are that:

- All loans are secured by registered mortgage over real estate which is assessed to be readily saleable or income earning.
- Loans are made within New South Wales and the Australian Capital Territory and predominantly within the greater Sydney Metropolitan area.
- All securities are valued by independent experienced valuers.
- Loans can be made to natural persons, companies or a trust provided they are not associates of Progressive.
- All mortgage loans other than Credit Code loans are subject to full repayment on written notice no later than three years from execution.
- Not more than 8% of total loan funds can be advanced to any one borrower.
- Experienced officers of Progressive appraise all loan proposals. No loan is made without:
 - the written consent of the Loans Manager and a Director of the Company;
 - a Valuer's certificate;
 - a Solicitor's certificate that the title is in order;
 - a registrable mortgage; and
 - satisfactory proof that the property to be mortgaged has been insured.
- Loans that require loan insurance are not made.
- Particulars of each loan and its security are entered into Progressive's database and the loans are monitored for performance. Daily exceptions reports are generated to identify any accounts requiring maintenance such as insurance renewal, a review of interest rates or follow up on late payment.
- Loans in default or arrears are considered on an individual basis. Reasonable proposals for the borrower to normalise the account are allowed and scope for restructuring the loan is investigated. When the loan is clearly no longer viable it will be called in and any actions thereafter necessary for recovery taken.

		4) X2 Rental Properties	1,170,000		
		5) Rental Property	500,000		
1,546,296	Business	Total:	2,400,000	64.4 %	5.20 %
		1) Owner-Occupied Home	2,400,000		

1.7 RELATED PARTY BENCHMARK

Progressive does not lend to related parties.

1.8 VALUATIONS BENCHMARK

- Real estate is valued on an "as is" and (for development property) an "as if complete" basis.
- Progressive uses independent licensed valuers and ensures that no single valuer conducts more than 1/3 of its valuations. The Company intends to obtain consent from the Trustee on the appointment of valuers. The Trustee has not consented to the appointment of a valuer at this stage.
- Before any property is mortgaged a current valuation is required.
- New valuation of a mortgaged property is required whenever it is considered that the most recent valuation is:
 - insufficient for a new loan or further advance sought; or
 - inadequate because of changed circumstances.

1.9 LENDING PRINCIPLES – LOAN-TO-VALUATION RATIOS BENCHMARK

Progressive meets the ASIC Lending Principles benchmark by:

- Maintaining the following loan-to-valuation ratios:
 - where the loan relates to property development a maximum of 70% on the basis of the latest 'as if complete' valuation; and
 - In all other cases – 80% on the basis of the latest market valuation.
- Requiring for any property development loan, that funds may only be advanced in stages based on external evidence of the progress of the development.

 Leo James Lynch – Director

 Judith Beswick - Director
